

Energy Committee

January 08, 2008

- 1) Meeting was held in the district office 7pm-730pm. Kirk Gostowski Building manager & Keith Rooney Energy Chairmen. We discussed a game plan for the future of the district. I asked him to make a "wish list" on high priority to low priority energy issues. I would like to set up a three phase game plan. Phase one would look at the best way to save money for the district & operate efficiently. Phase two would look at solar energy & boiler equipment. Phase three would look at abstract energy conservation (geothermal) or (natural gas buses).
- 2) During the week I also contacted Energy experts from diverse back rounds to come to JQA on January, 22, 2008 from 730pm-830pm. I've given them ten minutes to speak and then I will wrap up the meeting. I will make a cover sheet with their names, time slots, credentials next week for your review. I will need a projector on the 22nd for power point presentation.
