

Special Ed Committee January, 08, 2008

Meeting was held in the district office Tuesday January 08, 2008. Septa board members, Administrators, Teachers & parents attended.

Topics discussed

- 1) Socialization group for special needs children one hour a week after school. March – May 08 as a trial period. One Teacher & one TA needed to facilitate. Frank will look at cost to the district and a possible grant opportunity. Next year we would look for a thirty week session. Children would have a chance to socialize and build friendships in a positive learning & fun session. (I will discuss with BOE to implement ASAP if possible).

- 2) High School skills / goals program. SEPTA would like a meeting with Administrators, Principle & BOE member to discuss the skills program at the High School. Frank discussed 4 core subjects & a lab. I suggest we all meet and reach some kind of game plan to maximize learning for these children.

- 3) Summer program was discussed (early start). Deer Park will follow the BOCES calendar. Classes will be 830am-130pm five days a week with daily activities and no day trips.
